FOR IMMEDIATE RELEASE

New Model of Cable Locking Firearm Case

9 April 2007 - Carl Junction, MO - Secure Firearm Products announces a new addition to their line of high security firearm cases. The new case is a compact 12" wide x 12" long x 3" deep which is ideal for either one or two handguns. The case employs the same high security internal locking system using the same high security Medeco® Bi-Axial® keying system. The case also employs the new Side Locking Cable System so a person can lock the case inside their luggage or to the frame of the seat in their car. At home, the cable can be used to lock the case to furniture, such as a bed frame, to keep unauthorized persons from removing the case.

This new case as well as our full line of high security cases can be seen in person at the 2007 NRA Annual Meetings & Exhibits in St. Louis, MO, 2007 NRA Bianchi Cup in Columbia, MO, 2007 International Revolver Championships in Morro Bay, CA, the USPSA Nationals in Tulsa, OK, and the 2008 Shot Show in Las Vegas, NV.
