Poor Man's Plate - An affordable, durable, portable plate rack for those wishing to practice for an NRA Action Pistol, USPSA or Steel Challenge match.

Carl Junction, MO -- Secure Firearm Products introduces their newest target system. The Poor Man's Plate rack is constructed and designed with solid steel adjustable horizontal and vertical posts which can be adjusted to offer different positions of the plates for competition or practice. It is constructed with folding legs for easy transport from vehicle to range, or from storage to stage. It can be easily set up in just 10 minutes with only one wrench. Various size plates are available in either A-36 steel or AR500 steel. .

The Poor Man's Plate rack is an economical and portable target for a competitor to practice for the NRA Action Pistol, USPSA or Steel Challenge match. With its adjustable cross bar and plates, it can be set up for a variety of different practice or match positions. A club or range can easily setup for matches without the expensive of large, heavy, and time consuming equipment.
