This year the Secure Firearm Products Shooting Team collected a 1st, 2nd and 3rd Place Finish at this extremely competitive event.

The NRA Bianchi Cup is a combination of Speed and Accuracy. Shooting at stationary and moving targets. It all starts with an Interest and the Adventure to try this shooting sport.

The Open, Metallic and Production Divisions of the Midway USA/NRA Bianchi Cup vary in how many modifications competitors are allowed to make to their firearms. The Open Division allows guns or sights to be modified in any fashion while Metallic Division participants may only equip their firearms with metallic sights. The Production Division is the strictest of the three, prohibiting shooters from using pistols that have been altered in any way.

Class awards are awarded to various categories to include high law enforcement, high woman, high junior, high international, high newcomer, high senior, high service, high semi-auto, high revolver, and Aggregate.
